

Response from Bo Newsome

Bo Newsome, candidate for County Council, at-large seat

In favor of tunnel

"My apologies for just responding, but you can imagine how hectic it is campaigning right now. More importantly, I favor building a pedestrian crossing at that intersection. I have not seen the study you reference, but if a tunnel is feasible, then I support building it. If the costs are prohibitive or will take years to fund, then I would consider building an above ground crossing to make that intersection safer. I drive that way often and sympathize with a need to address this issue. Cheers"
